1, Owners manual

Only those items listed are supplied with each kit. Any additions may be charged for.

Each unit will be setup and tested prior to crating and shipping.

Each unit will come packed in 4 heavy duty wooden crates and mounted to a pallet..

Shipping weight is 640lbs. and ships class 70 freight.

Shipping cost are estimated at approximately ; ----- \$1200.00.

Additional cost factors;

Items not supplied by APS, but must be factored into the cost consideration with the installation of a pendulum;

Railings will be required on most pendulums to keep anyone from coming into contact with the pendulum.

Floor details will need to be designed and implemented.

A mounting platform will need to be designed, engineered, fabricated and installed into the building to hold the pendulum (see architectural specifications).

It will require a bit of electrical & conduit work for the installation of the control panel and the logic panel (see architectural specifications).

The general cost for the pendulum display will average \$100K to \$150K to complete.

The total cost may vary depending the amount of volunteer assistance or financial assistance that may be available for the various other components of the display.

Ordering information;

Pendulums are designed to fit the applications of height and swing distance. Therefore each pendulum may be unique, and requires custom fabrication. Please allow 10 weeks for this custom work for fabrication of in stock pendulums. If we are out of stock the process may take up to 6 months to deliver. Contact the seller for more information about stock prior to purchasing.

An order is confirmed when a purchase order is received accompanied with a down payment check for (\$17,875.00). Also to be included is a signed and dated copy of the bid proposal. A final payment will be due within 60 days of shipping when an invoice will be issued.

Additionally we will need the information as to the height and swing distance required for your installation. This information will be required at least 90 days prior to the shipping.

Rebates for early final payment:

A rebate of \$1000.00 will be issued for payment received within 30 days of the invoice date. Or a \$500.00 rebate will be issued for payment received within 60 days of the invoice date. Rebates will be issued within 14 days of receipt of payment.

Any additional extras or costs incurred will be deducted from the rebate.

Cancellations:

A 10% restocking fee will be charged on all cancellations.

This Bid proposal is an agreement between the seller and the purchaser. As such it is to supercede any and all contracts, purchase orders or agreements issued by purchaser with regards to price and items supplied with this kit.
